Without desiring to offer any excuses for the offenses of Mr. Dorsey, or for those of his predecessors, we simply suggest that one cause of all the trouble in the State Tressury is chargeable upon the people themselves. They call upon an officer to take charge of six or seven millions of public funds, to keep complicated and difficult accounts, to transact vital and delicate financial operations, to give heavy bonds for the proper discharge of these duties. And what compensation do they offer him? Fifteen hundred dollars-a sum which would hardly be considered a sufficient salary for the third book-keeper of a bank! It does not mitigate the errors or crimes of our State officials that they have been so wretchedly underpaid; but it certainly forms a very good reason for the fact that the State Treasury has fallen so often into incompetent or dishonest hands. If we cannot afford to pay sufficient price for

> Nor is Unio alone in this niggardly policy. Leoking over the salaries of State Treasurers we find that six States, New Hampshire, Vermont, Rhode Island, Delaware, Michigan and Illinois pay salaries of \$1,000 or less. Seven States give their Tressurers from \$1,000 to \$2,000. In Maryland and New York these officers receive \$2,500, and Indiana stands at the head of the list with \$3,000. The compari-

The Suffrage Question in Wisconsin, The late Union Nominating Convention in the State of Wisconsin, under the leadership of Senator Doolittle, notorious as a timorous and time-serving politician, utterly ignored the issue of equal suffrage, The omission was the more inexcusable as by the action of the State Legislature the practical question of equal suffrage in Wisconsin has been pisced before the people and will be voted on at the coming election. There is probably no county in the State ossessed of a better system of Sabbath Schools, or in which the schools are in a more flourishing condition, than Stark .-Some of these schools are celebrated as models, and well may they be, for they receive the best thought and untiring attention of the first men and women in the community, who are not content with the mere bestowal of the allotted time on Sanday morning, but pursue this beneficent calling with tully as much zeal as they are wont to bring to the discharge of the business labors of life.

OBGANIZATION OF A COUNTY UNION. The first Convention of the Stark Coun ty Sabbath School Union convened in this city yesterday, but, owing to the fact that the Soldier's Re-union was then in progress nothing was accomplished beyond a temporary organization.

MORNING SESSION. This morning a permanent organization was effected by the election of the follow. ing corps of officers to serve during the ensuing year:

The remarks of Mr. Lewis Miller were in response to a request to give the Convention the benefit of his experience and observations during several years of successful labor as Sabbath School Superin-

Mr. Miller did not believe that the position was one requiring peculiar genius, as had been suggested. The superintendent must devote his time and talents to the school in the same practical, common sense manner that a business man would apply himself to the a business man would apply himself to the management of his pecuniary affairs. He thought whatever success had crowned his efforts in this field, was achieved by devoting at least, one-half of his thoughts to the school, notwithstanding the fact that a large business demanded a great share of his time. No rule could be adopted to govern in all cases. Different circumstances prevail in different schools, and the superintendent must decide, by his own thought and study, how to master each and every itself fairly on the record on one side or the other of the question, at least as far as and study, how to master each and every own State Constitution, was a cruel and cowardly desertion of principle. The children, under the direction of Mr. James Tonner, sang sweetly several favorite songs, which were erjoyed by all present. Yen-minute speeches were made by Mr. Lewis Miller, Dr. Hartshorn, Rev. H. Haggett, and Rev. S. German. EVENING SESSION.

Most of the evening was devoted to discussion, with a view to ascertaining the best method of retaining the interest and attendance of Sabbath School scholars advanced in years. Many good suggestions were made, which cannot fail to be of practical benefit to those charged with the moral and religious training of youth.

Special Correspondence of the Cleveland Luaden. COLUMBUS, Sept. 16, 1865. The number of entries for the Fair was 2,464—making it a difficult task to inspect everything in four days. The number of visitors was 52,000. About 30,000 entered the Fair Grounds on Thursday.

Beater Hay Press, &c.

A point of great attractior at the Fair was the exhibition of some 300 varieties of wheat heads which Secretary Klippart gathered from the harvest fields in Europe during his late trip of agricultural inspection to the Old World. The specimens were neatly arranged in glass cases, plainly labelled and excited the admiration of visitors by the s'ze of heads and kerne's. Mr. K. also exhibited many varieties of rys, cats and barley selected in Europe, and twenty-four large fine engravings of the premium cattle of England. He brought to this country 194 varieties of garden seeds from the different countries in Europe, and has a collection of engravings of all the native grapes of France and those raised on the Rhine, showing the natural color of the grape and leaves. The choice foreign collections of Mr. K. will

add much to the interest and value of the useum of the State Agricultural Board. Fine Art Hall was constantly thronged with visitors, and was worthy of a State Fair. Conspicuously arranged along both walls were a number of fine busts of distinguished Ohio statesmen from the studio of Artist Walcutt. Among them were Ewing, Chase, and Corwin. Good portraits of Alfred Kelly, Samuel Medary, Gov. Brough, Gov. Anderson, and others of note, also decorated the Hall. The portrait of Gov. Brough, by Miss Ransom, of Cleveland, was appropriately draped in

mourning. In these days of labor-saving machinery the needs of working women have strong claims on the skill of inventors. Nor are they overlooked-though it is a little ramarkable that so few improvements of the kind are due to the inventive genlus of the gentler sex. Who has heard of Miss or Mrs. So-and-So's knitting machine, sewing machine, stove, washing machine, clothes wringer, loom, churn or cheese press? To man is woman indebted for nearly every uvention that lightens her domestic labors, and all should rejoice that so much has been accomplished in her behalf. Much interest in State and County Fairs is now centered in household implements, and we purpose to devote a few paragraphs to some improved articles exhibited here which seem worthy of general use.

while their power is sufficient for coarse cloth and leather. No modern invention has done more to increase the sum of human happiness. A large number of sewing machines were exhibited at the State Fair. All had merits, and either would prove a blessing in families where the needle is used. The Florence has become famous for all kinds of work, as it makes four different stitches, each being the same on both sides the fabrics. The Wheeler & Wilson was not in the corp. peting list, and the first premium was

awarded to the Grover & Baker machine. Two knitting machines were shownthe Dalton and the Lamb-and attracted much attention. The first premium was awarded to Dalton's, which does a great variety of good work, with dispatch that throws old-fashioned knitting needles into the shade. The Lamb Knitting Machine the shade. The Lamb Knitting Machine is of much simpler construction, and is certainly a complete knitter, for it knits the heel into the stocking and narrows off the toe complete. It knits a pair of socks complete in half an hour. Any kind or yarn is knit by it, and all varieties of fancy fabrics and knit goods in use. The farmer who complete in half and all varieties of fancy fabrics and knit goods in use. who owns or uses a reaper and mover should not fail to furnish his wife with a sewing and a knitting machine, that her ways may also be ways of pleasantness and

her days be long in the land. The drudgery of washing days should also be lightened as far as possible. True, patent Washing Machines have in the insin proved failures, but it will "never do to give it up so." The brain must be to give it up so," racked for "just the thing," and the Universal Washing Machine, exhibited by Mr. John Danner, of Canton, Stark county, appears to be the long sought desidera-. It took the first premium at the nois State Fair this fall, and at the Ohio State Fair. The washing is done with boiling water and steam, on the steam isundry principle. The machine is simple, efficient and cheap, and warranted to give entire satisfaction, if used according to directions. A steam tight tub; weighing but thirty pounds, easily operated without noise, and washing clothes clean and quick —no machine heretofore introduced has The Union meeting at Delaware on Sat-urday was well attended and marked by a meeting at Medina. It took the first premium at the Ohio State Fair without a dissent, bore off the palm at the World's Fair in London in 1862, received the Bronze Medal at the Great Fair of the

Another invention exhibited, which pleased working women very much and took the first premium, was Henderson's Hand Power Loom, patented last March by an Iows inventor. This loom will do all kinds of hand-weaving, and is worked so easily that a good housewife remarked to her companion after observing its operation—" When tired, I could sit down and weave a while to rest." They will be for weave a while to rest." They will be for sale in Onio during the year.

Labor-saving implements in agricultural pursuits have become almost numberless,

and constitute one of the greatest blessings of the age. Visitors at our state Fairs are amazed as well as gratified at the triumphs achieved by American genius in the practi-

Quaker Cider Mill, Cumming's Fodder Cutter, and Victor Straw Cutter, from the Cleveland Agricultural Works, or the Wood's Re-per and Wood's Mower exhibited by Mr. D. M. Doub, of Cleveland. Massra. Aultman & Co., Akreh, were awarded the first premium on their Buckeye Respers and Mowers. They have sold five thousand Akron Respers and Mowers in a little over a year, and two thousand manufactured at their Canton Works. The business of this single firm—one of many bury in filling agricultural implement orders—will give some idea of the great demand for labor-savers in the harvest fields of the prolife West.

Machinery has effected a revolution in raking and pitching hay as well as in mowing. Bundell's Horse Pitchlork unloads a ton of hay in from three to eight minutes. It is an Lilinois machine, on exhibition here. The ingenious and rapid Hay Pitcher of Meesrs, Fowler & Weeks, Upper Sandusky, took the first premium. Meesrs Mowry & Bassett, of Milan, had Toof's American Stacker on the ground, a simple, chesp and effective machine that rapidly forks up the hay to any desired height, placing it on the stack without any tickling but three pulleys and one rope. It was used at the Fair for feeding the Beater Hay Press, one of the greatest crowd-drawars on exhibition.

Hsy Press, one of the greatest of the last on exhibition.

The Lever Beater Hay Press, owned by Mr. William McReynolds, Cleveland, took the first premium over all competitors. In packing it is all the best Mover is in cutting. Its power is incalculable, and makes the bale so solid that it can be sawed up the bale so solid that it can be sawed up in the fodder like an elephant, and so rapidly does it work that hay can be put in pressed, baied, and taken out, in six min-utes. Mr. McReynolds will bring his Beater Press back to his establishment on Ohio street, where since May last, he has baled 500 tons of hay, mostly for the Lake Superior trade and the Pennsylvania oil

regions. Several valuable Portable Sawing Maseveral valuable Portable Sawing machines were exhibited—all great cavers of laber in wood cutting, &c, on farms. The Buckeye Combined Sawing Machine of Messra. White & Bostwick, Norwalk, Hu-The Sorgbum manufacturers delighted erowds with syrup making and sweet sips. Our notes on this important interest can not be compressed into this letter.

erly Speaker of the National House of Re-presentatives, was recently pardoned by the President. Madame Pareps, the distinguished vo-calist, whose arrival in this country was hailed with delight by musical critics, has

met with brilliant success at her first concert in New York. Mrs. Harriet Beecher Stowe, the immor-

tal author of "Uncle Tom's Cabin," has stely been rusticating at her daughter's house in Stockbridge, one of "the three graces" of the Berkshire hills, the other we being Lennox and Great Barrington. Wm. Castle, of the Castle Campbell Opera Troupe, has been lying sick, in Uhicago, for the past three weeks, and is still in that city. He has entirely lost his voice from weakness, and is unable to join

his company. Boston Corbett, who shot Booth, and against whose knees Southern bull-dogs rubbed noses in a most friendly way, his left the army and lives in New York. His trade is that of a hat-finisher, and it is tated that he has resumed it.

Captain John P. Ward, of the Detroit steamer Reindeer, (son of E. B. Ward) has been arrested and put under heavy bonds to appear for trial, on a charge of rape, to appear for trisi, on a charge of rape, preferred sgainst him by a young woman of Lexington, St. Clair county, Michigan, It is alleged that the young woman—respectable herself and of respectable connexion—was a passenger on the boat, with a lady friend for Detreit, and that envoute

The Toronto Leader of Thursday says "At an early hour yesterday morning the distinguished Southern General, John C. Breckinridge arrived in this city from Montreal, by the Grand Trunk Railway, secompanied by Col. Wenham, Major Helme and Col. J. Wilson. They put up Helme and Col. J. Wilson. They put up at the Queen's Hotel, where they were visited yesterday by a large number of friends and sympathibers. They are expected to be present at the billiard matinee this afternoon, invitations having been sent to them by Messrs. Biley and May. We believe Gen. Breckinridge and party proceed shortly to St. Catharines."

The Italian game of ball is called "Paltone." or the Grest Ball. The ball used is now five inches in diameter, and though not solid, but filled with compressed air, weight three-quarters of a pound. This heavy projectile is actually sent from one player to another over a space of three hundred feet, and not with a long bat, but by force of the arm alone. Of course, she the arm must be protected for su h a blow and it is accordingly guarded by a broad ring or bracelet of wood weighing no less than four pounds.

EFF. DAVIS HAS BERN CAUGHT. The war is now about played out,
Great changes have been wrought,
Our gallant boys are coming home;
Jeff Davis has been caught,
Hussal hussal is all the people shout.
The way the rotest chief was caught
is laughable indeed;
He tried to run in petticeata,
But he did not succeed.
Houses I hussal is hang all your banners out,
Jeff Davis has been caught, let every one new
shout.

Helian i minat mang all your banners out,
Jeff Davis has been caughs, let every one new
shoot.
Our boys did think it very strangs,
A woman should retreet
With a great bowle-knife in hand,
Hutti they saw his feet.
Hussal in hussal our boys have got goed sense;
'Twixt gaiter shoes and stogy boots they know
the difference.
Oh, erincline, we think you fine,
For you would not conceal
The slying rocal President,
When he did show his held.
Hussal thams's nothing half so fine Husne I husne I there's nothing half so fine To show a foot and ankle off, like well raise

orisoline.

You surely exame how, old Jaff,
You surely exame hope,
Or have a better end in view,
Than the end of a stout rope,
Hunsa! hunsa! Jeff Davis has no shoe;
In settling up all his socounts, just keep hi
orimee in view. The boys who canght Jeff Pavis,
We'll welcome one and all,
And treat them to a fine new suit
AI ISAAO'S U'AION HALL!
